

Lytham 1940s Weekend 1940s 2023

Weapons Policy

The use of weapons at the event is purely to add a realistic part of the uniform to troops or reenactors who would have been in the 1940s wartime era. They are also part of displays where their use and functions may be explained and demonstrated to members of the public as part of a static display.

There will be a battle re-enactment and any participant of the battle will be a member of the NWW2A or associated organisations under the direction of the NWW2A. Only blanks to be fired within the designated area for the purposes of this re-enactment and associated scheduled weapons firing displays where blanks will be used.

The local police have been informed of the use of deactivated weapons and will be present over the weekend to ensure we are acting within the law. They have also advised that given the current climate as far as guns are concerned, we ask you to be sensible with how and when you carry any de-acts and consider how it looks to members of the public who are not used to seeing such things.

Please follow these simple rules which have been agreed between Lancashire Police and event organisers.

Anyone not abiding the rules will be asked to leave the event. Such behaviour may lead to the cancellation of future 1940s weekends and could be in direct violation of the law.

- **No functioning firearms to be carried at the event * , except for firearms involved in the re-enactment by named individuals from re-enactment groups;**
- **All weapons must be carried with a valid certificate at all times;**
